

How to get your **Uber** tax summary

Uber publishes a tax summary for each month, a few days after the month ends. I need all three months of the quarter. It is the one document your BAS is prepared from.

Monthly, not annual. The app opens on the ANNUAL tab, which covers a whole financial year and is no use for a quarterly BAS. And a tax summary is not a tax invoice. An invoice is a single trip receipt.

1. Menu (≡) → scroll to Money → Tax info
2. Tap Tax summaries (not Tax invoices)
3. Switch to the MONTHLY tab → tap the year
4. Tap the month, one per month of the quarter
5. Share icon (top right) → save the PDF → send it to me

In the Driver app

If you don't have a computer handy

1. Open the Uber Driver app and tap Menu (≡, bottom right).
2. Scroll down past Manage to the Money heading, and tap Tax info.
3. Tap Tax summaries, not Tax invoices.
4. Tap the MONTHLY tab along the top.
5. Tap the year, then the month you need.
6. Tap the share icon (top right) to save or send the PDF.
7. Repeat for the other two months of the quarter.

On a computer

Easiest way to get all three months at once

1. Go to drivers.uber.com and sign in.
2. Open the menu (≡) and choose Earnings, then Tax Information.
3. Switch to the Monthly tab, not Annual.
4. Choose the month, then Download.
5. Repeat for the other two months of the quarter.

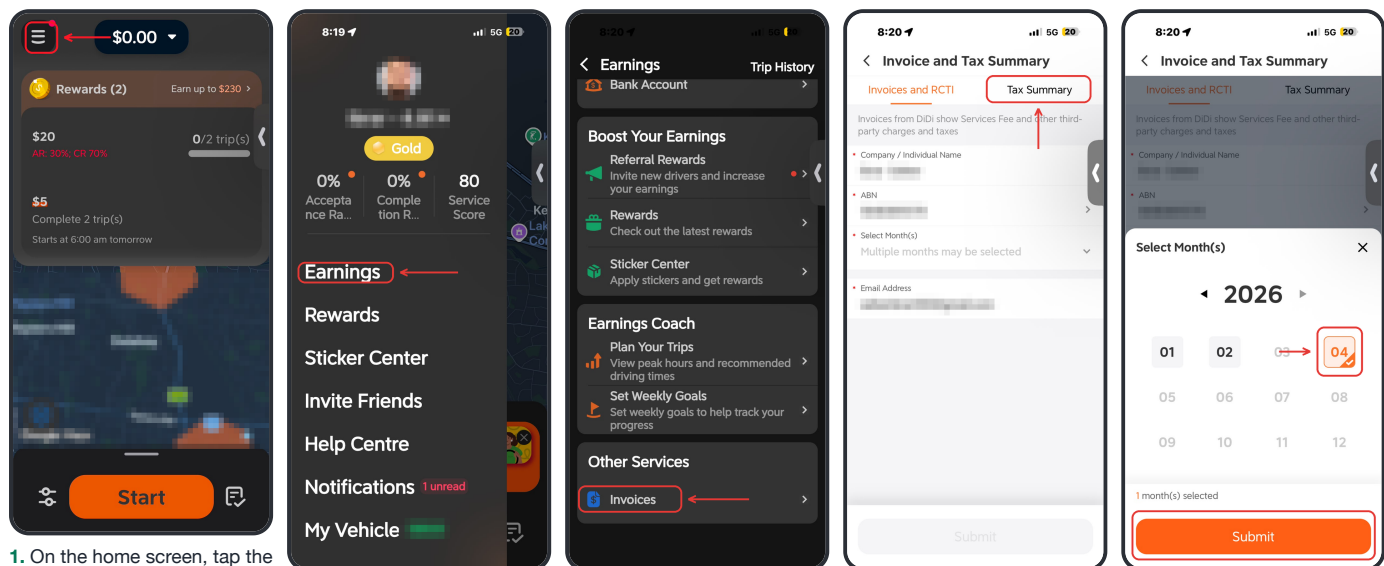

Worth knowing

- The most recent month may not be there yet. Uber takes a few days after month end to publish it.
- The annual list is labelled by the year the financial year starts, so "2025 Annual" is FY 2025/26. It doesn't matter if you stay on Monthly.
- Uber only keeps a short run of months in the app. If the month has dropped off, get it from drivers.uber.com on a computer.
- A month you did not drive still produces a \$0.00 summary. Send it anyway, so I can see the quarter is complete.

How to get your DiDi tax summary

DiDi works differently to Uber: you request the statements and DiDi emails them to you. Nothing downloads on the spot. I need all three months of the quarter.

Check your inbox first. DiDi emails a statement early each month covering the month before, so the ones you need may already be there. Search your email for "DiDi tax" or "DiDi statement".

1. On the home screen, tap the menu (≡) top-left
2. Tap Earnings
3. Scroll down. Under Other Services, tap Invoices
4. Switch to the Tax Summary tab. Your name, ABN and email are already filled
5. Tick the quarter's months → Submit. DiDi emails the PDFs to you

In the Driver app

The normal way

1. Open the DiDi Driver app and go to Earnings.
2. Under Other Services, tap Invoices.
3. Choose Tax Summary.
4. Select the months you need. You can tick all three at once.
5. Tap Submit, confirm your email address, and Submit again.
6. DiDi emails the statements to you. Save the PDFs, then send them to me.

In your email

Fastest, if you never deleted them

1. Search your inbox for "DiDi tax" or "DiDi statement".
2. DiDi emails a statement early each month covering the month before.
3. Save the PDF attachments and send them to me.

Worth knowing

- The email can take a little while to arrive, and it often lands in spam or promotions.
- It goes to the email address on your DiDi driver account, which may not be the address you use with me.
- If nothing arrives after a day, request it again or contact DiDi support in the app.
- If you drove for both Uber and DiDi, I need all three months from each platform.
